

Hamilton Niagara Chapter, Fleet Safety Council

**CSA 2010...The Next Generation Of Carrier & Driver Monitoring**

A lot is being said about the Comprehensive Safety Analysis (CSA2010) in the industry these days. Is it all true? Will it alter the way carriers, and drivers, approach driving and on-road performance? And how will it impact on carriers and drivers?

*Fleet Safety Council's* Hamilton Niagara Chapter, Spring Seminar will outline for you just what to expect, and what effect it will have, if any, on your operations as this program becomes effective, expected in July 2010 for US bound carriers and operators.

Principle speaker will be **Scott Claffey, Vice-President Safety Services, Great West Casualty Company**, the U.S.'s largest truck insurer and a primary trainer for ATA (American Trucking Association) members on CSA2010.

This interactive seminar includes a full breakfast, and time for Q&A. Breakfast begins at 8:00AM with the seminar starting at 9:00AM. Cost is a very reasonable \$35 but reservations (and a commitment to attend) are needed to guarantee seating and breakfast.

To register, please complete the following and fax form. Please note that payment will be expected at the door (cash or cheque only, no credit card processing is available).

**Thursday, March 25, 2009 at Kings Court Banquet Centre, 1159 King Road, Burlington, ON - 2 blocks west on Plains Road (at MacDonald's) from the QEW/403 Junction**
